

hi im cyrus 🦵🤔👍

play a word strategy game with me!

**letterpress** - my favorite. 5x5 board of letter tiles to spell words with until all tiles have been played - player owning the most tiles wins. try to 'lock' (own a tile AND all neighbors) a corner of tiles and build from there!

**capitals** - hex grid of letters. try to completely eliminate your opponent's territory. capture their capital for an extra turn

**wordbase** - it's kinda like Boggle football. play words from your end to your opponent's to win (each letter in a word must be at least diagonal to the previous). disconnect your opponent's tiles from their end to defend

>> get ready to lose! <<
